DESIGN

Concast is a Market Leader providing Precast Concrete Solutions and bespoke products to the Building and Civil Industries across the UK and Ireland. We are a proud family owned business providing a total in-house service including design, manufacture, delivery and installation. With over 40 years of experience, our design team is highly focused on value engineering and bringing Precast innovation to meet our client's needs. Our quality controlled factories ensure a high quality product with all the benefits of off-site construction including cost savings / certainty, superior Health & Safety, programme savings while also optimising sustainability.

**Our value engineered Precast Solutions include:**

- Crosswall
- Beam and column frame
- Cladding panels
- Multi-storey access cores
- Bespoke elements
- Bridge beams, culverts and associated products

Our accreditations include ISO Quality Assurance across everything that we do, a CE marked product, CHAS / SSIP, Achilles Building Confidence, Achilles RISQS and Builders Profile.

Through value adding solutions and striving to ensure total client satisfaction we have built our business on developing long lasting relationships with repeat clients. Concast is fully committed to providing you with a premier service and a quality Precast Solution for your project.
